Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 December 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. Claim 21 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 2/27/2005.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-13, 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Itzel (Patent no. 4,793,475). Itzel discloses a for dispensing a substance into a container, comprising: a closure main body having a top portion and a downwardly depending sidewall portion that is adapted to be secured to a container; vial securing means (3, 4) for securing to said closure main body a modular sealed vial that contains a substance; and unsealing means for unsealing said sealed vial when said closure is secured on to the container (6, 6', 8), see figures 1-7.

As to claims 2 –7, 9-13, 16 and 17 the sidewall portion is threaded for engagement with mating threading on a container, and wherein the unsealing means is constructed and arranged to unseal said sealed vial when said closure is being screwed onto the container, col. 7, lines 53-59.

As to claim 8, edge 7 is considered at least one projection for tearing a breached portion of the vial.

4. Claims 12, 14, 15, 18 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Affaitati et al (Patent no. 4,962,852). A dispensing container assembly is disclosed comprising; a container 1 having a threaded finish portion 3, at least one modular sealed vial 4, a closure cap

13 comprising a closure main body having a top portion and a downwardly depending sidewall portion that is adapted to be secured to a container, a vial securing means 8 for securing said modular sealed vial; and an insert 11.

As to claims 14, 15 and 18, is insert is manifestly constructed to beach the sealed via by penetrating a frangible member 5 at the bottom of the vial.

As to claim 19, the tubular bottom of the insert defines a passageway in as much as is claimed.

As to claim 20, the lower sharp end 12 is considered the means for breaching.

REPLY BY APPLICANT OR PATENT OWNER TO THIS OFFICE ACTION

5. "In order to be entitled to reconsideration or further examination, the applicant or patent owner must reply to every ground of objection and rejection in this Office action. The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. The applicant's or patent owner's reply must appear throughout to be a bona fide attempt to advance the application or the reexamination proceeding to final action. A general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section. The reply must be reduced to writing (emphasis added)", see 37 CFR 1.111 (b) & (c), M.P.E.P. 714.02.

Pointing out specific distinctions means clearly indicating in the written response what features/elements or distinctions have been added to the claim/claims, where support is found in the specification for such recitations and how these features are not shown, taught, obvious or inherent in the prior art.

If no amendments are made to claims as applicant or patent owner believes the claims are patentable without further modification, the reply must distinctly and specifically point out the supposed errors in the examiner's action and must respond to every ground of objection and

Art Unit: 3728

rejection in the prior Office Action in the same vain as given above, 37 CFR 1.111 (b) & (c), M.P.E.P. 714.02.

The examiner also points out, due to the change in practice as affecting final rejections, older decisions on questions of prematurity of final rejection or admission of subsequent amendments do not necessarily reflect present practice. "Under present practice, second or any subsequent actions on the merits shall be final, except where the examiner introduces a new ground of rejection that is neither necessitated by applicant's amendment of the claims nor based on information submitted in an information disclosure statement filed during the period set forth in 37 CFR 1.97(c)" (emphasis mine), see MPEP 706.07(a).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David T. Fidei whose telephone number is (571) 272-4553. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on (571) 272-4562. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
